

Small centrifuges

MANUAL CENTRIFUGE

Operate independently and everywhere

The adaptable manual centrifuge can be simply clamped to any benchtop, with no need for electricity. Its self-lubricating drive system makes it virtually maintenance-free.

Highlights

- max. RPM: 3,000 min⁻¹
- max. RCF: 1,298
- max. capacity: 4 x 15 ml
- self-contained
- maintenance-free due to its self-lubricating drive system
- clamping device for simple table mounting
- choice of 2 rotors
